**“Nudes”**  
Photography Exhibition  
By Jacques Maudy  
Gallery of the Alliance Française of Brisbane

Opening 10th March 2011 6pm  
Opening Address by Colin Beard

Jacques Maudy’s photography can be challenging for some. Some images deal with bondage, sexuality, religion or simply glorify the beauty of the female body.

“The human body is one of the wonders of the world. Playing with light and shades is the essence of photography. Each model has inspired me images which somewhat reflected their personality. My aim is to produce the best images I can without being restricted by mainstream thinking or taboos. Self censorship is not part of my vocabulary.”
